Software Developer experienced in building full-stack and enterprise applications using TypeScript, C#, .NET, Angular, Next.js, NestJS, and PostgreSQL. Skilled in software development, API development, database design, and system maintenance.

SKILLS

Languages: TypeScript, JavaScript, C#, SQL, Go

Frontend: Angular, React, Next.js, Tailwind CSS, Bootstrap

Backend: .NET, NestJS, Node.js, REST API

Database: PostgreSQL, TypeORM, SQL, Database Design

Cloud & Tools: AWS S3, Git, GitHub, Swagger, JasperReports

Other: SEO, CMS Development, Responsive Web Development

WORK EXPERIENCE

Full Stack Developer | *Sriwilai Bangkok Co., Ltd.*

May 2026 - Present

Project: GOC Prime

Technologies: Next.js, NestJS, TypeScript, PostgreSQL, TypeORM, AWS S3

- Developed and maintained a full-stack trading news platform using Next.js, NestJS, PostgreSQL, and AWS S3.
- Built responsive frontend interfaces, implemented backend APIs, and integrated AWS S3 for media upload and file management.
- Designed and developed an internal CMS for content creation, publishing, and website management.
- Implemented SEO features, including metadata optimization and search engine-friendly URLs, to improve content discoverability.
- Designed relational database schemas and delivered end-to-end features across frontend, backend, and database systems.

Software Developer | *Soft Square International Co., Ltd.*

Aug 2025 - May 2026

Project: ECT-ERP HRMS (Human Resource Management System)

- Developed and maintained HRMS features, dashboards, and reports using [Angular](#), [TypeScript](#), [Bootstrap](#), [PostgreSQL](#), and [C#/.NET](#).
- Designed and optimized complex SQL queries for data processing, improving data accuracy and system performance.
- Implemented feature enhancements, resolved technical issues, and supported UAT and production releases.
- Refactored legacy codebases and maintained system documentation to improve maintainability and user support.

IT Software Engineer Intern | *Haier Electric (Thailand) Pub Co., Ltd.*

Nov 2024 - Feb 2025

- Developed responsive frontend interfaces for three key projects Real-time production line simulator, Barcode tracking dashboard for product scan tracking, Factory KPI monitoring dashboard to track performance against plan
- Focused on building interactive, user-friendly UIs and visualizing data effectively using [React.js](#), [Next.js](#), [TypeScript](#), [JavaScript](#), and [Tailwind CSS](#).
- Collaborated with cross-functional engineers and supervisors to gather business requirements and translate complex manufacturing logic into functional, intuitive interfaces.

EDUCATION

Computer Engineering Degree

Rajamangala University of Technology Isan | GPA 3.36

2021 - 2025

Relevant coursework includes Software Engineering, Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, and Web & Mobile Application Development.
